PART 2: performance details

The following represent acts common in adult entertainment. Please place an "X" at the beginning (in front) of any item only if you are certain that you are comfortable and sure about performing the act on camera. Your responses and photos are necessary when Casting Directors are choosing performers. This questionnaire will not be seen by anyone outside this agency, but will serve as a guide when discussing models with Producers and Studios. A comment box at the end of this list is for any response that you feel needs more explanation.

PART 3: additional info

Describe any “special” sex talent you have (for example: squirt, can blow myself, can fuck myself, cum multiple times, far shooter, etc.)

Provide names of previous adult entertainment companies (if any) that you have worked with. Include dates.

Personal social media / web page with more info about you (FaceBook, Twitter etc). Enter a full web address including http:// at the beginning.

PART 4: photos

PRIVACY NOTE: Your photos and videos will remain confidential. We are required by law to obtain written signatures and acknowledgments for model release of any photos and videos before they are posted for any reason — we do not require any such signatures at this stage, and therefore, rest assured, that whatever you submit with your application will NEVER be used for ANYTHING outside of simple consideration for modeling.

To send your photos: Attach them to the email you send us with the questions above.

IMPORTANT: If you submit an application without all the required photos, your application may not be accepted and may be rejected automatically. Please follow directions completely. Before uploading your photos, you should be certain your photos are good enough quality for us to evaluate your physical appearance easily. If possible, have a friend take your photos. It's usually best to take several shots of each pose and choose the best examples.

Do not send photos of yourself with friends, children, pets, etc.

Photos should be as recent as possible

Photos from cell phones and web cams are acceptable, but must be of good visual quality.

We suggest you use as much artificial light as possible when taking photos indoors; turn on all lights in the room, and add more as needed to provide better illumination.

Avoid flash photography if you are shooting yourself reflected in a mirror.

To send your photos: Attach them to the email you send us with the questions above.

VIDEO EXAMPLES

Make your video any way you'd like! Get creative! Show your stuff and be sexy about it. Ultimately, you want to "tease" your audience and turn them on. How you do that is up to you. Make sure that, at a minimum, you show your face so we know it's you, and that you get fully naked and turned on. If you have any questions about what to do in your video, **ask us!**

You'll need to have a device that can capture digital movies—this could be a camcorder, digital camera, or even your cell phone! You copy the movies to your computer, and then you can either upload them as-is with your model application or edit them with software such as iMovie (for Mac) or Windows Movie Maker (for Windows). If the video is more than 15 megabytes (MB), then you will want to email us first and we will let you know an alternate way to send your large file to us (we have a very easy way to recommend!).

PHOTO EXAMPLES

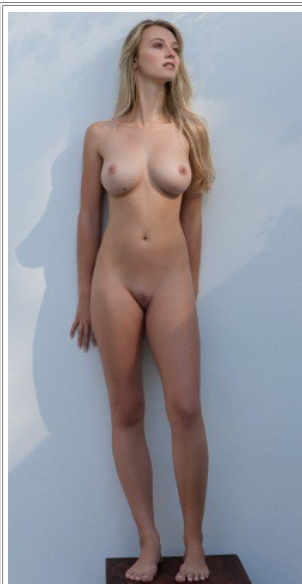

When you take your photos of yourself, it's not necessary to make them look professional! But what **is** important is that you make sure that they are clearly showing your body... we care a lot about what your body looks like — after all, that's the nature of this business! Here are some examples of the styles of photos we like to see best. Don't worry about taking perfect pictures, sometimes just standing in front of the mirror to take a photo of yourself works best!
